Re: Childcare availability in Ontario

Dear Minister Thompson:

The Municipality of Bluewater is concerned about the critical issue of childcare availability in our province and how it is linked to educational requirements and low wages within the childcare sector. We believe that addressing these issues is crucial for the well-being of our families and the future prosperity of Bluewater and Ontario.

Childcare availability in Ontario has become an increasingly pressing problem for parents and guardians. Access to affordable, high-quality childcare is essential for families to balance work and family responsibilities, and it plays a vital role in supporting the early development and education of our children. However, the lack of available childcare spaces is a significant barrier for many parents, limiting their ability to participate fully in the workforce and achieve financial stability.

We suspect that one of the key factors contributing to the shortage of childcare spaces is the educational requirements imposed on childcare workers. While it is important to ensure the safety and well-being of children in childcare settings, the current educational requirements may be overly restrictive. These requirements often result in a shortage of qualified childcare providers, making it challenging to expand the availability of childcare services.

This year in the Municipality of Bluewater, we have childcare facilities and before and after school programs that have closed or have reduced capacity due to lack of qualified staffing. These recent closures and capacity issues have imposed a significant amount of stress on families in our community.

Additionally, low wages within the childcare sector are a significant concern. Many qualified and passionate individuals are discouraged from pursuing a career in childcare

due to the low wages and limited opportunities for professional growth. This low-wage structure not only makes it difficult to attract and retain skilled childcare educators but also effects the quality of care children receive. Investing in the professional development and fair compensation of early childcare educators is essential to ensure that our children receive the best care possible and the best start in life.

To address these issues and improve childcare availability in Ontario, the Municipality urges you to consider the following actions:

1. Review and Reform Educational Requirements: Work with relevant stakeholders to review and potentially revise the training methods of early childcare educators, striking a balance between safety and accessibility by increasing the praxis model to learning.
2. Invest in Professional Development: Advocate for increased investment in professional development opportunities for childcare workers to enhance their skills and qualifications.
3. Increase Wages: Support initiatives to increase the wages of childcare workers, ensuring that they are paid a fair and competitive salary for the vital work they do.
4. Expand Funding: Work to secure additional funding for the expansion of childcare services and facilities, especially in underserved and rural communities.
5. Promote Public Awareness: Raise public awareness about the importance of accessible and high-quality childcare services and the need for policy changes.

This is an urgent matter that is expected to worsen and your timely response to these concerns is needed.

By addressing these issues, we can make significant strides toward improving childcare availability in Bluewater and Ontario and ensuring that families have the support they need to thrive. We kindly request your timely support and advocacy on these matters and would be grateful for any updates or initiatives related to childcare reform in our province.

Thank you for your attention to this critical issue. We look forward to your continued dedication to the well-being of Ontario's families and children.

Sincerely,

Mayor Paul Klopp for the

Re: Town of Aurora Council Resolution of October 24, 2023

Motion 10.1 – Councillor Kim; Re: Cannabis Retail Applications for the Town of Aurora

Please be advised that this matter was considered by Council at its meeting held on October 24, 2023, and in this regard, Council adopted the following resolution:

 - c. Utilizing a distance to the next cannabis retail store formula; and**

POLICY UPDATE

Policy Update - Social and Economic Prosperity Review

Municipalities across Ontario are facing increasingly complex challenges, such as tackling homelessness and climate change, without the financial tools to solve them. It's time for the province and municipalities to work collaboratively towards solutions for the long-term stability and sustainability of municipal finances.

[AMO has called on Premier Ford](#) to propose an update of the partnership between provincial and municipal governments to build sustainable communities, a solid foundation for economic growth and quality of life.

A [social and economic prosperity review](#) would help to create a sustainable, accountable provincial-municipal relationship where both orders of government can meet their responsibilities, grounded in:

- Affordability and fiscal sustainability for both orders of government
- Fairness for taxpayers and affordability for residents
- Coordinated and timely infrastructure investment resilient to climate realities
- Increased housing supply and affordability
- Robust health and social services supporting increased economic participation
- Long term economic development and prosperity for Ontario and its communities
- Modern, effective and streamlined service delivery

It's the right time for a province-wide conversation.

- Investigate expanded powers for municipal law enforcement officers.
- Develop a proactive approach to awareness, prevention, enforcement and collaboration across all enforcement personnel, including police, municipal law enforcement officers and other provincial offences officers.

RE: Requesting your support for Bill 21, Fixing Long-Term Care Amendment Act (Till Death Do Us Part), 2022

September 25, 2023

Dear Mayor Kasenberg,

I am writing to you today to share an update on Bill 21, Fixing Long-Term Care Amendment Act (Till Death Do Us Part), 2022, and to request your support for this important legislation.

Bill 21 amends the Residents' Bill of Rights set out in section 3 of Fixing Long-Term Care Act, 2021 by adding the right of residents not to be separated from their spouse upon admission but to have accommodation made available for both spouses so they may continue to live together.

The Act was inspired by Cambridge resident Jim McLeod, who will have been separated from his wife of 65 years Joan, on September 17, 2023. Nearly 6 years later, Jim continues to champion spousal reunification. He often says that he will talk to anyone and has two giant binders full of his advocacy work on the Bill. Last week, he told me that his heart is breaking because of his separation from Joan. He has brought other seniors who are separated from their spouses into the advocacy – you cannot sit with these folks for any amount of time and not care deeply about this legislation.

I know that you value the many contributions that older adults have made to Waterloo Region, and care deeply that they can live their final years with dignity and love. **I am hoping you will consider bringing a motion forward to your Council, in support of the Till Death Do Us Part Act.** Your support will help us to keep attention on this important legislation, so that it can finally be called to the Standing Committee on Social Policy – one step closer to Royal Assent.

I would be happy to discuss the Bill with you further, via phone call or an in-person meeting at your convenience. Thanks in advance for considering my request.

Sincerely,

Catherine Fife, Waterloo MPP

BACKGROUND:

On November 15, 2022, the Till Death Do Us Part Act, passed second reading in the Ontario legislature after being [introduced for the third time in September 2022](#). The bill was then referred to the Ontario Legislature's Social Policy Committee. You can view highlights of the second reading debate here: <https://www.youtube.com/watch?v=mYRIgQgDe2k>

I have been pushing for the Standing Committee on Social Policy to schedule a time to begin the work of reviewing Bill 21 since November 2022. **Today marks 286 days since the Act passed second reading at the Legislative Assembly of Ontario.** Unfortunately, the Bill has yet to be called to committee.

Bill 21, which was formerly Bill 153 and 95, respectively, had passed second reading and was sent to the Justice Committee in December 2019, but was wiped off the order paper when Premier Ford prorogued the house in 2021. It was reintroduced early 2022 but did not have time to progress before the election.

Since I first introduced this Bill in 2019, the number of people who've reached out to my offices with heartbreaking stories of couples entering long-term care who are torn apart has skyrocketed. Simply put, Ontario seniors deserve dignity in care and should have the right to live with their partner as they age. Of note, Nova Scotia passed similar legislation, titled the [Life Partners in Long-Term Care Act](#) in 2021.

Following many meetings with stakeholders, it's clear that "care campuses" which offer different levels of care (independent, assisted living and long-term care) are the progressive model for investing in quality care for Ontario's aging population. Care campuses are an essential element to keeping couples together as they often age at different rates. This level of choice has been brought to my attention as especially important to rural and northern municipal leaders across Ontario. The care campus model for seniors housing that builds different levels of care has unique financial savings that will be critical as we grapple with a rapidly aging province.

We need the Bill to be called to the Standing Committee on Social Policy as soon as possible. We know that couples who are separated across Ontario cannot wait any longer for this legislative change to be made.

Here are the links to recent media coverage of the Till Death Do Us Part Act, which provide more specific insights into the lived experiences of older adults who are separated from their spouses:

Whereas over the past decade a flood of properties have been removed from the ownership and long-term rental market (Canada Research Chair in Urban Governance at McGill University) contributing to housing shortages, increased housing demands and increased housing costs resulting in housing affordability issues, including affordable rentals; and

Whereas short term rentals (STR) can be beneficial, when operated appropriately, by providing solutions for the accommodation industry that supports local tourism and small businesses as well as providing an opportunity for property owners to generate income from their residence (permanent or seasonal) using a convenient third-party system; and

Whereas STR's can create nuisances including noise, parking, high volumes of visitors attending a property, septic capacity and fire safety, for adjacent residential property owners who wish to experience quiet enjoyment of their property; and

Whereas research indicates that demand for STR's is increasing, in part due to vacationers choosing domestic travel options as well as the financial benefits to property owners, demonstrating that STR's are here to stay; and

- de-list/remove a property from the STR company's listing when a municipality has identified and verified life, health and/or nuisance infractions including noise, fire safety, septic, etc. to ensure a property cannot be rented; and

Whereas research indicates that demand for STR's is increasing, in part due to vacationers choosing domestic travel options as well as the financial benefits to property owners, demonstrating that STR's are here to stay; and

Whereas there are no Provincial regulations in place governing third party STR companies resulting in a variety of regulations/guidelines being implemented at the local municipal level which creates inconsistencies, confusion and frustrations for both consumers and residents across the province; and

Therefore, be it resolved that Burlington City Council calls on the Provincial Government to move forward as soon as possible to legislate all third-party short-term rental brokerage companies, for example Airbnb and VRBO, requiring them to:

- appropriately manage and be responsible for their listings, and to compel compliance; and
- establish a registry system, making it mandatory for each rental listing to register and pay an appropriate annual fee, with the requirement that STR companies are to provide the registry and collected fees to the municipality in which the STR properties are located, allowing municipalities to be aware of all registered STR properties and to have access to funds to assist with the response and enforcement of issues surrounding STR properties; and
- de-list/remove a property from the STR company's listing when a municipality has identified and verified life, health and/or nuisance infractions including noise, fire safety, septic, etc. to ensure a property cannot be rented; and

That a copy of this resolution be sent to all Ontario municipalities for support as well as to the Minister of Municipal Affairs and Housing and Halton MPPs.

NOTICE OF A RATE HEARING

Enbridge Gas Inc. has applied to increase its natural gas distribution rates

Enbridge Gas Inc. has applied to increase its natural gas rates effective April 1, 2024, to recover costs associated with meeting its obligations under the *Greenhouse Gas Pollution Pricing Act* and the regulations under the *Ontario Emissions Performance Standards*, as well as to recover other related account balances.

If the application is approved as filed, a typical residential customer of Enbridge Gas Inc. would see the following annual increase:

EGD Rate Zone (2,400 m³)	\$69.91
Union South Rate Zone (2,200 m³)	\$63.72
Union North Rate Zone (2,200 m³)	\$63.97

For a typical residential customer, these increases include an annual bill increase arising from the 2024 carbon charges of \$68.79 (EGD) and \$62.91 (Union South and Union North); plus, a one-time charge of \$1.12 (EGD), \$0.81 (Union South) and \$1.06 (Union North) to recover the balances in the related deferral and variance accounts.

Other customers, including businesses, will also be affected. It's important to review the application carefully to determine whether you may be affected by the proposed changes.

The federal government's *Greenhouse Gas Pollution Pricing Act* establishes a carbon pricing program under which a natural gas utility in Ontario, such as Enbridge Gas Inc., is required to pay a carbon charge to the federal government on the volume of natural gas that it delivers to its customers, and on the volume of natural gas used in the operation of Enbridge Gas Inc.'s natural gas distribution system. The federal carbon charge came into effect on April 1, 2019, has increased annually on April 1st between 2020 and 2023 and will increase again on April 1, 2024.

The *Ontario Emissions Performance Standards* program is the Ontario government's carbon pricing system for industrial emitters that came into effect on January 1, 2022, and replaced the federal government's Output-Based Pricing System in Ontario.

This hearing will be held under section 78 of the **Ontario Energy Board Act, 1998**.
